LuxTrust announces the appointment of Mr Jacques Thill as Chairman of the Boards of Directors of LuxTrust S.A. and LuxTrust Development S.A.

An appointment that reflects strategic continuity, strong governance and LuxTrust’s ambition to help shape a digital future built on trust, sovereignty and resilience.

LuxTrust S.A., a leading European provider of digital trust services, announces the appointment of Mr **Jacques Thill** as Chairman of its Board of Directors.

This appointment reflects high standards and ambition as LuxTrust continues to expand its activities and strengthen its position in support of a digital environment built on trust, sovereignty and resilience. It is in line with a clear direction: anticipating digital challenges in order to help build a future in which trust becomes a lasting foundation for digital uses, exchanges and interactions.

At a time when interactions, identities, contracts, data and assets are increasingly digital, expectations in terms of security, compliance, accountability and sovereignty have never been

higher. In this rapidly evolving environment, LuxTrust continues to play a structuring role in digital trust, serving individuals, businesses and institutions by securing identities, protecting data and ensuring trusted transactions.

Mr **Jacques Thill** takes up his position in a context where technological innovation and digital security are more inseparable than ever. He notes that, “Digital trust is based above all on security. LuxTrust must continue to strengthen the resilience of its solutions, while innovating in order to anticipate technological developments and support the economy and society as a whole.”

This appointment reflects the attention paid by the company to demanding governance, capable of supporting the next phases of growth and sustaining innovation in a sector that has become central to Europe’s digital economy.

Mr **Jacques Thill** brings to LuxTrust recognised experience at the intersection of public policy, the digital economy and transformation. Since March 2025, he has served as First Class Government Counsellor in the office of the Minister of the Economy, SMEs, Energy and Tourism. In this role, he coordinates the development and implementation of policies relating to the digital economy and space policy. He also serves as Chairman of the Luxembourg Space Agency and was Chairman of the Board of Directors of LuxConnect S.A. from 2022 to 2025.

Through this background, he brings strategic vision, strong governance experience and a sharp understanding of the issues related to innovation, digital sovereignty and value creation in demanding environments.

LuxTrust extends its sincere gratitude to Mr Serge Allegrezza for his commitment, his availability and the high-quality contribution he made to the company’s governance and development throughout his term.
