ArcelorMittal Foundation Luxembourg supports ArcelorMittal employees engaged in volunteering

This year, ArcelorMittal Foundation Luxembourg has selected ten projects led by ArcelorMittal employees in Luxembourg who are involved in various charitable activities.

As every year in October, the annual ‘Minigrants’ ceremony organised by the ArcelorMittal Foundation Luxembourg was held at ArcelorMittal Headquarters in Luxembourg City.

The Minigrants program is an initiative aimed at supporting projects carried out by associations or foundations active in Luxembourg or the Greater Region, in which ArcelorMittal employees in Luxembourg are involved as volunteers.

Each year, ArcelorMittal Foundation Luxembourg provides financial support to several projects that align with its strategy by distributing a total of €30,000 among the initiatives approved by a jury and selected by the Foundation’s Board of Directors. To be selected, a project must address at least one of the following areas: social, education, culture and heritage, or environment.

The ten selected projects, from the dozen presented, offer a glimpse into the diverse ways in which employees are involved in causes that benefit the communities around us:

- Enzo ta belle leçon de vie: support financially the dreams of children with cancer
- Maison des Sports et Loisirs de Mondelange: inclusive sport and art programs for children, promoting development, self-confidence and social inclusion
- Prcours Rose du Pays Haut 2026: Pink October race, with proceeds donated to organizations fighting breast cancer or used to fund specialized medical equipment
- Escapade: support to a pedagogical farm dedicated to nature, education and animal welfare, for people with physical or psychological disabilities
- The Insight Project: support for the professional reintegration and empowerment of three women affected by exploitation through vocational training and provision of equipment needed to
  pursue sustainable careers
- Sabi Africa Center: “Pan-African Nights” is a series of three cultural events promoting African cultures and intercultural dialogue in Luxembourg through music, art, fashion, cinema, literature, while fostering social cohesion and inclusion
- Foyer Rural de Zouffgten: organisation of cultural, sportive and festive events in a French village. Here to finance the sound system for dance and gym classes
- Maison Croix-Rouge Aubange-Messancy: summer First Aid Camp for children aged 10-12
- Education à la Soutenabilité et à l’Environnement: organisation of educational workshops on biodiversity, circular economy and sustainability, helping raise environmental awareness among
  young people in Luxembourg
- MyElmen: development of community life in Elmen village through local events; in 2027, a children’s football tournament.

Mr Michel Wurth, President of the ArcelorMittal Foundation Luxembourg, said: « The initiatives presented year after year as part of the “Minigrants” programme are always wonderful, generous and altruistic projects. We want to support this momentum among ArcelorMittal employees who are committed to serving others. This approach is in line with the philanthropic spirit of our Foundation, which works within Luxembourg and the cross-border region to facilitate the development of social, cultural, educational and environmental projects.
