François Mousel, Managing Partner of PwC Luxembourg, remarked:

"Becoming a Partner is a significant career milestone that reflects not just technical excellence but also entrepreneurial spirit, leadership, and a commitment to lasting impact. These promotions are a testament to the exceptional value these individuals bring to our clients, our people, and the future of our firm. We congratulate these new leaders, who will be instrumental in driving the firm's mission of empowering our clients to reach the leading edge of their industries. The fact that this year we also reach a milestone – the 200-partner mark – speaks volumes about what we have built over time to get to where we are, and the confidence we have that the renewed partnership will further build our future."

Alongside these Partner promotions, one Director, Andreas Braun has been elevated to Managing Director within the Advisory practice, further strengthening leadership across the firm. Congratulations Andreas.

When PwC returns after summer, we will be launching our New Partners Campaign.

We set ourselves a challenge some years back to always introduce our new Partners in a unique way every year – and this year we did not shy away from this annual challenge, but we have decided to keep it a secret until we launch! Because if we told you everything, where would the surprise be?

We will be sure to make plenty of noise around this campaign in the Autumn. So keep an eye out so you can enjoy discovering a bit more about our new Partners both professionally and personally on PwC Luxembourg's social media (Facebook, Instagram, and LinkedIn). Naturally, we will also release information about each new Partner, including their official bio and contact information, on the website on a regular basis.
